Appeal of the Anti-Imperialist League of Washington.

The Sixth of November to Mark the Perpetuation of a Republic or the Abrogation of the Constitution-A War for Liberty Transformed Into One of Subjugation by McKinley

William Birney, President of the Anti-Imperialist League of Washington, has, in the name of that league, issued an address to voters, irrespective of past party affiliation, to vote for Bryan and Stevenson. The address follows:

"To American voters, irrespective of pas

party affiliation: "In the opinion of the Anti-Imperialist League of Washington, D. C., the most mo-mentous political event of American his-tory is at hand. The 6th of November will mark the perpetuation of a Renext will mark the perpetuation of a Republic in its glorious career, or the abrogation of the Declaration of Independence, of the Constitution, and of the proclamation abolishing slavery. Wheever votes for McKinley and Roosevelt, no matter what may be his intention, will, as a matter of fact, register his opinion that governments do not derive their just powers from the consent of the governed; that peoples may be ruled without a constitution, and may be ruled without a constitution, and may be ruled without a constitution, and that slavery may exist under the jurisdic-tion of the United States. Are there many Americans prepared to abandon the glori-ous traditions of the Republic for the de-bauching and degrading tenets of imperinlism? Are the descendants especially of the men of 1775-'83 and the descendants and survivors of the men of 1861-'65 so disposed? We think not.

"Located in the National Capital, we have had unusual facilities for observing the course of empire pursued by the present Administration, under the blandishments of European solicitation and the pressure of domestic dictation, and we warn our countrymen that the most dan-gerous combination possible to elect to the two highest offices in the gift of the people has been selected-William McKinley, a man of mediocre ability, whose every act has been marked by self-seeking regard-less of principle, and Theodore Roosevelt, 'strenuous' aggressiveness would be

and of decay; murder and rapine abroad and disturbances and misery at home. Such has ever been the bloody course of empire. The few at the top may have temporary honor, riches, and giory. The vast middle and poorer classes will have degradation, poverty, and shame. Mark the contrast in the Democratic nominees. It is conceded that Mr. Bryan's Indianapolis anti-imperialist speech is one of the greatest state papers ever written, and that he is a man of principle. Mr. Stevenson is a mature, conservative, and ex-perienced statesman, whose advice must be of great assistance to Mr. Bryan in all

The fact that such eminert and con-servative statesmen as ex-Governor and ex-Secretary Boutwell, ex-Senator and ex-Secretary Boutwell, ex-Senator and Secretary Schurz, ex-Secretary Olney, ex-Secretary Judson Harmon, ex-Senator Henderson, Senator Wellington, and a host of others who opposed Mr. Bryan four years ago are supporting him now, proves that imperialism is the paramount, may the only issue. An eminent Republican has said that all other issues are to lican party. They are Andrew L. Harris, look may be added to the sump and the state of the sump and the state of the sump and the state of the sum of the su as 'billows that will pass under the ip,' but that if the course of McKin's Administration should be endorsed yould be 'the beginning of the end of 'Control of the beginning of the end of 'Control of the Democratic side there is James 'Control of the Democra

# QUESTIONS FOR VOTERS.

F. W. McCarthy Addresses the District Democratic Association.

A rousing Democratic meeting was held at the headquarters of the District of Columbia Democratic Association, 907 Pennsylvania Avenue, last evening. There was a large attendance and enthusiasm ran igh. It had been intended to have a number

of prominent Democratic speakers present, but those who had been invited were called away at the last moment to speak at meetings in Maryland. However, this loss

was compensated by the address of F. W.
McCarthy, of Mississippi.
Mr. McCarthy was introduced as a young
Southerner who had been doing great work
for the Democratic candidates. In his address, which was brief but full of telling points, Mr. McCarthy declared that every man should make up his mind now wheth-er he desired to have the Republic sustained or whether he wished to add an impetus to the course of the Administration which could end in nothing but militarism and despotism. He made a vigortarism and despotain. He made a vigorous appeal to all to cast their vote for the
Democratic candidates. He pointed out
to officeholders the fact that the maxim,
"to the victor belong the spoils," would be
fully carried out if Mr. Bryan is elected
and that those in Government employ who
do not support Bryan will be turned out in

The cases that Pyramid Pile cure do no reach are so few that physicians are doing away with operations for piles and depend more and more upon the simple but safe and effective remedy to accomplish a complete cure, and it never disappoints in any form of piles, whether protruding, itching, or bleeding.

Mr. Thomas E. SOCIAL STUDY CONVENTION.

Fred H. Wines' Address on Modern Methods of Treating Criminals.

The Convention for Social Study, under he auspices of the Washington District, Baltimore Conference, held its first session last night at Hamline M. E. Church, corner Ninth and P Streets northwest. Rev. Dr. Lucien Clark, Presiding Elder of the district, occupied the chair and introduced the speaker of the evening, Fred H. Wines, Assistant Director of the Census. Mr. Wines' topic was "Modern Methods of Freating Criminals." His address was full of Interest and was followed by his hearers

with close attention. Mr. Wines said: "We have done every-thing that can be done in the world for the criminal to reclaim him, to restore and reform him. We have not succeeded and probably will never succeed in ending crime. The poor are always with us and so is the criminal. The question of the criminal is very closely associated with the church of Jesus Christ; but, strange to say, he is not taken notice of very much by the ministers of the gospel. We must make discrimination between crime and the criminal. Law exists under variou forms. There is the divine law, the nat ural law, and the statutory or human law. The violation of divine law we call sin; the violation of natural law is called vice and the violation of the statutory law is determined a crime. Crime, however, i the creator of the law. There can be no crime where there is no law.
"Crime thus defined may or may not hav

an ethical quality. There may be a viola-tion of the law of morals, which may not be a violation of the human law. There are offences against criminal law which are punished, but which are no violation against the moral code. They are to a great extent police regulations. We must distinguish between the criminal and crime. Society must distinguish between of the greatest importance to all the property of all the greatest importance to all th

such as hanging, stoning, flaying, boiling such as hanging, stoning, flaying, boiling, and even burying alive. "It is only within the last century that the prison question came into prominence as dealing with criminals. The substitution of legal methods, trial of the criminal and his orderly and legal sentence, was a matter of slow growth. The story of prison reform in the United States occupies a very prominent place in the annals of prison bistory." place in the annals of prison history.

Dr. Wines then described how, before the Revolutionary War, criminals were brought to this country from England and new Public Library valuable books, manuscripts, pictures, autographs, documents, papers, and relics of historical and contemporaneous value, brief histories of all existing organizations, stating their objects and purposes as set forth in their charters and by-laws, with lists of their present membership, and your committee add a full record of the Centennial of 1900, and have all such materials and donations presented to the library to be kept in a separate division or section, we will unitedly, by a thoroughly organized effort, give to a comparatively new and most important institution the dignity and sacredness of age and greatly add to sold to the planters here as slaves. With

and sacredness of age and greatly add to ficers of the army or navy."

The speaker then reviewed the various prison systems in vogue in different lands. He said the "Irish" or progressive system attracted the attention of men from this country who transplanted the good features of it here. The outcome of it was the intermediate system of reformatories for juvenile criminals. The Irish system has become the foundation of the present whole prison system of the United States. The modern idea is to grant the criminal the opportunity to reform and to regard it the

duty of society to assist him.

Mr. Wines concluded his discourse by reviewing the Pennsylvania, Auburn, and the
present Elmira system. At this morning's session, which will begin at 5 o'clock, papers will be read by Rev. A. H. Ames, Rev. S. L. Bryant, Rev. A. H. Thompson, and Rev. J. F. Heisse. There will be a session this afternoon at 2 o'clock and the final session will be held this evening at 8 o'clock.
